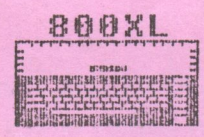
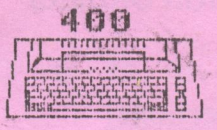
LOTSA BYTES

800/XL/XE SOFTWARE





THE MOTHER OF ALL CATALOGS!!

✡ ✡

The biggest selection of programs for any computer! The 800/XL/XE line was very popular with programmers, and now an incredible body of work from the Lotsa Bytes archives has been made available!

All software will be on disk as reproductions of the originals or distilled into files for maximum use of disk space. No compression is used and no special software is need to run the programs.

TERMS

Foreign orders must be in U.S. funds (U.S. Dollars!).
Personal checks will clear before orders are processed.
Cashier's Check or Money Order guarantees fast processing!
Minimum order with payment is $20.00.
Minimum COD order is $50.00. COD for U.S.A. orders only.
COD orders require the higher of $20.00 or 20% in advance.
COD fee = $5.00. COD advances not refundable.

Shipping

All via USPS First Class, Priority or Air Mail!

US/CANADA Orders of less than $50.00	=	$4.00
US/CANADA Prepaid Orders of $50.00 +	=	$0.00 Free!
ALL FOREIGN ORDERS	=	$5.00

☺ ☺ ☺ ☺ ☺ ☺ ☺ ☺ ☺ ☺ ☺ ☺ ☺ ☺ ☺ ☺

Bonus Selections!

Select up to $2.00 of software free with every $10.00 of software purchased! Bonus selections must be made on the same order earned. A $100.00 order earns $20.00 more of software!

CATALOG INFORMATION

Memory Requirements

XL/XE computers require 64K RAM and 400/800 machines require 48K RAM to run most of the programs.

Catalog Headings

DOCumentation, if any, will be on disk only.

D - Disk Docs are usually short. A small number are detailed.
OD - On Disk - on the same disk or part of the program.
W - Walkthrough that provides solutions to adventure games.
N - No docs, so ya gotta figure it out yourself!

BASIC

B - The program requires Atari BASIC or equivalent to run.

NAME QUALIFIERS

T - The program requires an OS Translator to run on an XL/XE computer.
400/800 - The program will run only on machines with the 400/800 Operating system.
XL/XE - The program will run only on machines with the XL/XE Operating system.
1050 - The program disk is enhanced density and requires a 1050 disk drive or equivalent (double density drive).

A huge amount of time has been invested in testing the programs for functionality and developing this catalog. Although the catalog has a high degree of accuracy it is not perfect. Faulty and/or dirty floppy disk drives are the most common compatibility problem (they don't work well with anything!).
